

Coming in 2009 . . .

Your connection to a
NEW research platform
and unprecedented access
to your CCH subscriptions!

***Get ready for a
NEW connection to . . .***

- Research that's faster, easier and more thorough
- Authoritative CCH and Aspen Publishers content delivered according to the way you work
- Full utilization of your CCH resources

Coming in 2009!
IntelliConnect

The new CCH online platform that will take your research to a higher level of efficiency, accuracy and productivity

Some time ago, we began to envision the next generation of the CCH research platform—a system that would enhance the way our customers conduct research and also deliver workflow benefits that extend beyond the conventional research process.

Now, after much planning and development—and customer feedback—we are proud to introduce **IntelliConnect**.

IntelliConnect not only replaces the CCH Internet Research NetWork and CCH Tax Research NetWork, but it gives you a new and more efficient way to access our world-class content.

Search all your CCH subscriptions at once!

With IntelliConnect, there's no need to select a publication or a tab or switch to another product platform. The core CCH products that were on separate platforms (Legal, Tax,

Health, and Human Resources) are now integrated on IntelliConnect.

No longer will you wonder if you looked in all the right places—IntelliConnect searches all of your CCH content and delivers results in organized, filtered lists.

Get more from existing resources

Because IntelliConnect searches all of your CCH subscriptions, it can reveal content you didn't know you had access to.

Designed for the way you work

IntelliConnect features search-engine style functionality and a split screen display that lets you quickly sort through a search results list.

Added features

IntelliConnect offers improved access to Smart Charts, practice tools and other resources. There will also be more Tracker Alerts, all with RSS capability.

Making the transition . . .

In the coming months, you will receive details on when the system will be available to your organization. You will have several weeks to make the transition, and interactive phone training will be available.
